Experience

DevArion Solution | Full Time | On-Site

Web Developer | Shopify Developer

Design user experiences for Devarion Solution’s digital products, including, websites, web applications, and dashboards. Translate product requirements into clear user flows, wireframes, responsive interfaces, and interactive prototypes in Figma. Create reusable components and consistent design patterns, and work with project teams to refine designs and prepare them for development.

Frenco.ae | Full Time | On-Site

Shopify Developer

Customized Shopify themes and storefronts to meet client requirements. Built responsive store pages and integrated Shopify apps, payment gateways, and third-party services. Improved store speed and mobile responsiveness, and maintained existing Shopify stores to support a smooth shopping experience.

DMS | Full Time | Hybrid

Frontend / Web Application Developer

Developed responsive web application interfaces using React.js and Next.js. Built reusable UI components with Tailwind CSS and Bootstrap, improved website loading speed, and collaborated with backend developers on API integrations. Maintained organized code and helped debug and optimize applications.

One Stack | Full Time | On-Site

MERN Stack & Shopify Developer

Developed responsive web applications and Shopify stores using React.js, Next.js, and modern CSS. Built reusable interface components and integrated REST APIs with Node.js, Express.js, and MongoDB. Customized Shopify themes, added app integrations, and worked with designers to deliver user-friendly, mobile-responsive experiences.

Education

Virtual University of Pakistan

Bachelor of Business & Information Technology (BBIT)
